

OPPORTUNITY: Graduate Actuarial Analyst

LOCATION: Stellenbosch, South Africa

LIFE AT DYNAMO

Dynamo Analytics is an actuarial consultancy and software provider, established in 2012, in London. We are now a team of more than 50 employees across the UK, France, South Africa, Norway and Australia.

There are two key components to the business; our consulting team advises our clients on actuarial, financial and statistical modelling, and our software team continues to develop our innovative enterprise modelling platform, Psicle. This allows us to provide our clients a unique and complementary offering of a software solution and actuarial advice, and our teams work closely together across geographies to deliver these.

Being a close-knit team allows everyone to have a truly meaningful role, with the opportunity to add real value to both our clients and our growing business. Our team tell us that our people, their talent, expertise, collaboration and the work itself, is what makes Dynamo a rewarding and enjoyable place to be.

THE OPPORTUNITY

We have an opportunity for a bright and talented graduate with an interest in the use of technology to improve actuarial practice.

Working primarily on the consulting side of Dynamo, you will join a close-knit and growing team, assessing and identifying clients' needs, supporting clients with all their actuarial requirements including reserving, pricing, capital modelling and preparing reports.

You will also contribute to work to identify, summarise and present professional views and recommendations based on data collected and analysis carried out. In addition, you will contribute to developing the company's modelling technology platform, Psicle.

All will be completed with the support of our team of experienced analysts together with mentorship from our senior consulting team who will guide you as you progress with your onwards career.

We are looking for a great team player and self-starter with the ability to think creatively. You will be supported by a local and international team, who are always willing to share their deep and varied expertise.

You can enjoy a career growth opportunity that extends beyond borders, supporting delivery for our clients, becoming a key part of their unique and transformational journeys, and helping us to grow the business.

REQUIRED SKILLS, EXPERIENCE AND ATTRIBUTES:

- An actuarial, mathematical, engineering, statistical or similar degree (with a Merit or above preferable).
- Studying towards (or intending to) becoming a Fellow of the Actuarial Society of South Africa (or equivalent) .
- The ability to learn quickly and use your core skills and knowledge to solve problems outside of your experience.

- A strong appreciation for the role that technology can play in businesses, either through formal studies in computer science/data analytics, or through hobbies such as coding.
- Comfortable interacting with clients and communicating the results of your analysis to more senior members in the team, and to clients where necessary.
- A strong self-starter and demonstrate curiosity and inquisitiveness in your work.
- Collaborative and an individual who care deeply about helping the team succeed and about delivering a high-quality work product to the client.
- Short-term insurance experience and/or working knowledge of SQL or SAS would be advantageous, but not essential.
- Full right to work and remain in South Africa.

TEAM FIT

Our values are simple: Expertise, Entrepreneurialism, Selflessness, Heroism and “#ClientLove”. These basic attributes add up to create a driven, motivated and engaged team.

We don't have a typical 'Dynamite' type, and having an identikit team is not what we aspire to. However, there are a few things we do have in common.

- We value having deep expertise and broad knowledge of an area, and rely on our collective expertise to add value to our clients.
- #ClientLove instantly resonates with every one of us in the team, and we each strive to deliver the best possible experience for each client.
- We all want to be a part of something disruptive and new, and want to add our knowledge and skills to shape the way.
- Working with others is our preferred style of getting things done; we're a tightly knit team and help each other constantly, we recognise the uniqueness of all, which combined, together, is what enables exceptional delivery.
- We're self-starters through and through.
- #EmployeeLove, our people are deeply humble humans, that together achieve outstanding success.
- We value drive and tenacity, for the things our people are passionate about – we call this the Dynamo “Spark”.

HOW TO APPLY

If you feel that you could be a good fit for our team, please send your CV and a cover note to careers@dyna-mo.com.

Recruitment is a two-way process, so we'd love to know what you are looking for and why this could be the place for you.

Closing date for applications: 31 October 2021
